## THE NEWS

A delegation of Germans at Washington insist that the next Presidential candidate shall be irrevocably committed to the destruction of slavery.

Gen. McClernand has been restored to his former rank and ordered to report to Gen. Banks.

Deserters from the rebel lines are continually pouring in to our lines.

Gen. Meade, who has been some time sick in Philadelphia, is recovering, and will soon resume his command.

The Rebel Forrest is endeavoring to make trouble about Northern Alabama and Middle Tennessee.

The veteran soldiers have had a public reception at Indianapolis.

The Circuit Court at Louisville has decided that guerrillas are common enemies, and that Express companies are not responsible for goods seized by them *in transitu*.

Our afternoon dispatches bring the announcement of the death of James B. Clay, at Montreal.

A fire near Richmond destroyed several rebel hospital buildings and a large quantity of stores.

Some evil spirits it seems are endeavoring to torment Jeff. Davis before his time, by burning him out. He'll get enough of fire by-and-by.

Gen. Gillmore still pegs away at Charleston, but the rebels say it doesn't hurt much. Perhaps so.

## STATE NEWS.

Whitewater, which raised $8,000, will fill her quota without using more than half the amount voted. The Legislature, by special act, has authorized her to apply the balance to tax benefit of soldiers' families.——The Ozaukee *Advertiser* records the death by freezing, on the last day of December, of a little daughter of a Mr. Dumpsey of that place. She started for school, but not returning at the appointed time, search was made, but her body was not found until five days after, in a fence corner where she had sank down exhausted, and died.——The construction of a horse railway from the depot to the business portion of the city, is one of the enterprises now engaging the attention of the people of LaCrosse.——The Hudson *Times* says the country in that section is getting wild over the gold stories from Idaho. Several have about "sworn in" from that place.——Lawrence University at Appleton has now 198 students.——The county treasury of Polk Co., has been robbed of $500 in money, and $200 in public orders.——Delos Ward of Fond du Lac, formerly a Captain in the 14th, has been commissioned a captain of a colored company, and has started for St. Louis to assume command.

THE TAX ON TOBACCO.—It appears from a communication of the Commissioner of Agriculture to the Senate, presented by Senator Sherman, that in the Commissioner's opinion the proposed tax of 20 per cent on leaf tobacco would destroy the export trade, which now produces twenty millions of revenue. It estimates our average stock at less than one third of the product of the world, and shows that more tobacco is grown in Europe than in this country, and that substitutes for the growth of this country are already driving it out of European markets. It is shown that the article is grown throughout South America, Northern and Southern Africa, the East and West Indies, Asia, all of Europe excepting Britian and the northern portion of the continent, in every State and Territory in the United States, and in Canada. The export of Brazil has increased seven-fold in two years. Holland and Belgium have increased their product several hundred per cent in two years; and other European States have made advancements, while France has absolutely restrained the cultivation by refusing to give permits. The report concludes that the United States does not control the tobacco trade, and that the capacity of other countries to grow all they need is ample.

THE notorious Judge McCunn, of New York, who a few months ago was elected a Superior Court Judge by the copperhead, rowdy element of that city, has started out in his official career by releasing, on a writ of *habeas corpus*, two notorious pickpockets, arrested for lightening the pockets of worshippers in a church.

RE-ENLISTED.— The Madison *Journal* learns from a letter just received, that the whole 17th regiment, to a man, have re-enlisted and are now entitled to the proud name of veterans. We have no occasion to bespeak for this regiment a fitting reception when they enter the Capital City.

SOME years since the United States Government purchased a perpetual exemption from the dues paid on our vessels navigating the Elbe. Belgium, thus far, has paid the dues levied by the Dutch on our vessels navigating the Scheldt, on their way to and from Antwerp. But now that Belgium proposes to extinguish the payment of these Scheldt dues, Gov. Seward has had a treaty concluded, by which the United States are to contribute $500,000 as their proportion of the total sum to be paid Holland.

HOMESTEAD LANDS TAKEN UP IN NEBRASKA.—At the Omaha District in Nebraska, over 100,000 acres of land were taken up during the month of December, under the Homestead Law, and the cash receipts on the same at that office were $12,000.

ARMOR FOR IRON-CLADS.—The attention which the invention of a new armor for iron-clads has created in New-York, deserves some notice. The gentleman who discovered the plan for putting wood over the iron, went to the Navy Department in New York, and at his request a target was made on his principle. It was fired at and found to be a complete failure, as the ball went right through and through it just as though it had been a piece of pasteboard, and had the experiment resulted differently it is possible that a vessel would be built armored in this way.

CLOTHING ACCOUNTS FOR VOLUNTEERS.—In the settlement of the clothing accounts of volunteers whose periods of service have been less than one year, they will be entitled to the following credit for the different periods of service, viz:

| | |
|---|---|
| Three months' service | $23 03 |
| Six months' service | 35 32 |
| Nine months' service | 40 31 |

BANK COMPTROLLER'S REPORT.—We give below a summary of the Bank Comptroller's Report, showing the condition of the Banks in the State on the 4th day of January, 1864:

| | |
|---|---|
| Capital | $3,397,000 00 |
| Circulation | 2,531,778 00 |
| Deposits | 5,165,139 75 |
| Specie | 321,977 85 |
| Cash Items | 93,956 00 |
| Public Securities | 2,014,625 00 |

STRAGGLING AT THE SOUTH.—Whilst the veterans in the Federal service are re-enlisting almost to a man, and the army is being rapidly reinforced by new recruits, the greatest anxiety prevails among the rebels to escape from the ranks. This fact is attested by the rebel newspapers. The Richmond *Dispatch* of the 4th inst. says:

A gentleman who has traveled of late extensively in the Confederacy informs us that he has met everywhere a vast number of soldiers—as large a number, he thinks, as there is in camp—who are now absent from their duty. This agrees with the reports we receive from every quarter, and which are confirmed by the declarations of the Secretary of War, that the larger part of the army are absent from their posts. A friend of ours met lately with fifteen able-bodied gentlemen in one group who had managed to obtain trifling contracts, or be detailed, or obtain some other pretext for escaping their duties in the field. In some of the counties in Virginia we hear that service in the ranks is looked upon as disreputable, and that the man is considered green who cannot keep his sons or pets out of the army.

A REBEL BRIGADIER.—Hon. E. W. Gantt, of Arkansas, formerly Member of Congress from that State and subsequently a rebel Brigadier, is now making speeches on the war. As an instance of the intense desire of the people to be rid of slavery, he says that he lately addressed 800 Arkansas soldiers returned from Mr. Price's army, representing a fourth of the State, and containing men of wealth and influence, judges, professional men, &c. At the close he took a vote on the question of returning to allegiance to the old Government *without* slavery. "And how many votes, think you," he asks, "were given in favor? *Just eight hundred!*" Some people at the North, he closes by saying, think he doesn't represent Arkansas; "but they will soon see that I do." He predicts that in four months time Arkansas will be back under the old flag with the curse of negro slavery removed.

It is gall and wormwood to the Copperheads to read such items as the above.—The destruction of slavery is the destruction of their fondest hopes. What is there for the old, rotten, corrupt hulk of Democracy to float in when slavery gives place to Freedom?

CLOTHING FOR SOLDIERS SENT BY MAIL.—The following bill having passed both Houses, now only awaits the President's signature to become a law:

Articles of clothing being manufactured of wool, cotton, or linen, and compressed in a package not exceeding two pounds in weight, addressed to any non-commissioned officer or private serving in the armies of the United States, may be transmitted in the mails of the United States at the rate of eight cents, to be in all cases prepaid, for every four ounces, or any fraction thereof, subject to such regulations as the Postmaster-General may prescribe.

—Wooden weddings are taking the place of tin weddings. One of these new fangled concerns came off not a great distance from here recently, and the gifts were water pails, cradles, clothes pins, boot-jacks, wash tubs and rolling pins, potato mashers and rat traps, beef steak maulers and match safes, sugar boxes and wash boards, wooden trumpets and jumping jacks, wooden shoes and cord wood, etc., etc.

PRIZE CROPS.—E. S. Hayward, Brighton, N. Y., has been awarded by the Monroe County Agricultural Society prizes for the following crops: Rutabagas, 776 bushels per acre; profit $133,83. Barley, 40 4-10 bushels per acre; profit, $23,27. Potatoes, 290 bushels per acre; profit, $74,44. Carrts, 529 bushels per acre; profit, $108.

—Guns are a drug now. Many foreign muskets imported on speculation are going back; and a lot of 10,500 Austrian muskets, destined for the rebels, but captured by the Government, were sold at auction in Boston the other day for $3.50a3.75 each.

—We learn, says the Washington *Republican*, that when the first Greek-fire shell from GILLMORE's batteries exploded in Charleston, a contraband who witnessed the spectacle jumped up, and, clapping his hands, exclaimed, "See dar! hell hab laid an egg!"

—The Boston *Traveler* says the news by the last steamer confirms the statement that there are not emigrant ships enough to bring the hundreds over who are waiting to come to this country. It is said that the boarding houses in Liverpool are full of people waiting for passage to the United States.

—Would a promissory note which is made payable at sight be a legal tender to an inmate of a blind asylum?

PARDONS.—The pardons and commutations of sentence granted by Governor Salomon during the year 1863, number forty.

## LOCAL MATTERS.

DENTAL FACTORY.—On account of the recent change and re-opening of the Myers House, Dr. Burrus has moved the *Dental Factory* a few steps east, over McKey's store, where everything will be found in running order and no extra charge for gas.

TAKE NOTICE.—The Ladies' Aid Society will meet to-morrow at their rooms, from 10 o'clock A. M. to 5 P. M. A full attendance is earnestly requested, as there is business of importance to be brought before the Society. H. ANN BURGESS, President.

PROMOTED.—We are pleased to learn that Sergeant Henry C. Miles of the 1st Illinois regiment, has been promoted to a First Lieutenantcy in the Thirty-fifth Wisconsin. Lieut. M. has been in the service for over two years, and has acquitted himself with marked honor. His present promotion, we trust, is only the stepping stone to further advancement.

NEW PAPER.—Mr. J. A. Smith, proprietor of the Fond du Lac *Commonwealth*, has started a paper in Ripon called the Ripon *Commonwealth*, which succeeds the *Prairie City Record*. The first number has reached us, and presents a very neat appearance. The people of Ripon have reason to congratulate themselves on having so good a paper to advocate their interests.

THE CARD OF DR. HALE.—In our special notice column will be found the card of Dr. Hale, embracing in it the certificates of some of our well known citizens, giving their testimony to the efficacy of the treatment of Dr. H., for chronic ailments. The Doctor has removed from the Myers House, and now has a handsome suit of rooms over Colwell's drug store.

LOCAL NEWS.—We should be greatly obliged to our friends in the neighboring towns for any items of news that would be of general interest to our readers. Their own good taste will suggest to them what we want in this line. Let their items be short and to the point, and of such matters as they themselves would be interested in hearing from others.

A DESPARATE AFFRAY occurred on Wednesday last, on the Northwestern Railroad, between some soldiers of the 8th and 12th Illinois cavalry, resulting in the death of Edward Dunn, and the serious injury of John Eagan. The quarrel began on the cars before they reached Jefferson, and was caused by one of the soldiers of the 12th accidentally stepping upon the toes of Trute, one of the 8th. The entire party was involved in the quarrel, those of the 12th being pitted against those of the 8th.

NEW BOOKS.—"The Red Erie; or the Whaler's Last Cruise" is a handsome volume of 420 pages, just published by Crosby & Nichols, Boston.

"Papers for Thoughtful Girls" is the title of another book of 344 pages, published by the same house. Both these volumes are more especially adapted to the younger portion of the community, and are very interesting. They are for sale by Sutherland.

SINGULAR.—We were to-day informed by Mr. H. B. Daily, of a remarkable circumstance which occurred at Beloit—an incident of the recent heavy snow storm. A Mrs. Palmer of that place had some valuable chickens, two of which were missing the morning after the storm. It was supposed they were snowed in and had died, but fourteen days afterward, in digging away a snow bank, one of them was found alive and apparently as well as usual. Search was then made for the other, which was found the next day, it having been buried fifteen days, but did not appear to to be the least injured by its long incarceration in its snow prison.

SPECIAL NOTICE.

CONSUMPTION—CAN IT BE CURED?

Incipient consumption, or consumption in its first and second stage, before the lungs are broken down, can be cured by the new remedies.

The following statement is from Mr. D. R. STOUT, an old citizen of Janesville, at present a salesman in M. Hersh's "Young America Clothing House." I am thus specific in my statement, that those who wish may easily find any person from whom I receive and publish a certificate. They are not statements made to order, of fictitious persons, for the purpose of deceiving the afflicted.

"For the last year prior to the time Dr. Hale took my case in hand, I was badly afflicted with a throat and lung disease, that gave me serious trouble, and considerable fears that it might terminate in confirmed consumption. At this time, Saturday, Nov. 7th, 1863, I went to Dr. Hale and was examined. He told me my case was serious, might soon terminate fatally if the disease was not promptly arrested, in fact that I was in the second stage of consumption. I did not at the time commence treatment, for the reason that Dr. Hale had been here but a short time, and I had not sufficient confidence to employ him. But I continued to grow worse so fast, and had tried patent medicines until I knew it done me no good, on Saturday, November 14th, I placed myself under Dr. Hale's care.

"I was under Dr. Hale's care from Nov. 14th to Dec. 29th, at which time he pronounced me cured. I can say that I believe I am permanently cured. I have no cough, no pain or soreness in the lungs or chest, and have gained in the last month 10 pounds in flesh, and am enjoying as good health in every respect as I ever did in my life. I have delayed giving this statement some time, for the purpose of becoming satisfied that my cure was permanent, but I have no doubts any longer but what my disease is permanently removed.

"D. R. STOUT."

CATARRH—CAN IT BE CURED?

JANESVILLE, Jan. 26, 1864.

For several years I have been troubled with nasal catarrh and throat disease; a hacking and troublesome cough that gave me considerable trouble and pain, and some fears that it would terminate in fatal consumption; frequent and serious attacks of sick headache, blurring of the sight, dyspepsia and distress in the stomach.

I have tried several physicians, and a number of advertised remedies, but found no permanent relief; and could not even find out the nature of my disease. As soon, however, as I read Dr. Hale's description of catarrh I knew what was the matter with me, and immediately put myself under his care.

After six weeks' treatment by Dr. Hale, I am happy to make the assertion that I believe myself entirely cured, at least I have not for some time past, nor do I at present, feel any symptoms of my former disease, and candidly believe the difficulty is radically removed.

BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The fellocs are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted, to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

*Prices of the Badger for 1864:*

| 9 Tooth Drill | $75 |
| 10 Tooth Drill | 80 |
| 11 Tooth Drill | $85 |

### THE NEWS

A delegation of Germans at Washington insist that the next Presidential candidate shall be irrevocably committed to the destruction of slavery.

Gen. McClernand has been restored to his former rank and ordered to report to Gen. Banks.

Deserters from the rebel lines are continually pouring in to our lines.

Gen. Meade, who has been some time sick in Philadelphia, is recovering, and will soon resume his command.

The Rebel Forrest is endeavoring to make trouble about Northern Alabama and Middle Tennessee.

The veteran soldiers have had a public reception at Indianapolis.

The Circuit Court at Louisville has decided that guerrillas are common enemies, and that Express companies are not responsible for goods seized by them *in transitu*.

Our afternoon dispatches bring the announcement of the death of James B. Clay, at Montreal.

A fire near Richmond destroyed several rebel hospital buildings and a large quantity of stores.

Some evil spirits it seems are endeavoring to torment Jeff. Davis before his time, by burning him out. He'll get enough of fire by-and-by.

Gen. Gillmore still pegs away at Charleston, but the rebels say it doesn't hurt much. Perhaps so.

### STATE NEWS.

Whitewater, which raised $8,000, will fill her quota without using more than half the amount voted. The Legislature, by special act, has authorized her to apply the balance to tax benefit of soldiers' families.———The Ozaukee *Advertiser* records the death by freezing, on the last day of December, of a little daughter of a Mr. Dumpsey of that place. She started for school, but not returning at the appointed time, search was made, but her body was not found until five days after, in a fence corner where she had sank down exhausted, and died.———The construction of a horse railway from the depot to the business portion of the city, is one of the enterprises now engaging the attention of the people of LaCrosse.———The Hudson *Times* says the country in that section is getting wild over the gold stories from Idaho. Several have about "sworn in" from that place.———Lawrence University at Appleton has now 198 students.———The county treasury of Polk Co., has been robbed of $500 in money, and $200 in public orders.———Delos Ward of Fond du Lac, formerly a Captain in the 14th, has been commissioned a captain of a colored company, and has started for St. Louis to assume command.

THE TAX ON TOBACCO.—It appears from a communication of the Commissioner of Agriculture to the Senate, presented by Senator Sherman, that in the Commissioner's opinion the proposed tax of 20 per cent on leaf tobacco would destroy the export trade, which now produces twenty millions of revenue. It estimates our average stock at less than one third of the product of the world, and shows that more tobacco is grown in Europe than in this country, and that substitutes for the growth of this country are already driving it out of European markets. It is shown that the article is grown throughout South America, Northern and Southern Africa, the East and West Indies, Asia, all of Europe excepting Britian and the northern portion of the continent, in every State and Territory in the United States, and in Canada. The export of Brazil has increased seven-fold in two years. Holland and Belgium have increased their product several hundred per cent in two years; and other European States have made advancements, while France has absolutely restrained the cultivation by refusing to give permits. The report concludes that the United States does not control the tobacco trade, and that the capacity of other countries to grow all they need is ample.

THE notorious Judge McCunn, of New York, who a few months ago was elected a Superior Court Judge by the copperhead, rowdy element of that city, has started out in his official career by releasing, on a writ of *habeas corpus*, two notorious pickpockets, arrested for lightening the pockets of worshippers in a church.

RE-ENLISTED.—The Madison *Journal* learns from a letter just received, that the whole 17th regiment, to a man, have re-enlisted and are now entitled to the proud name of veterans. We have no occasion to bespeak for this regiment a fitting reception when they enter the Capital City.

SOME years since the United States Government purchased a perpetual exemption from the dues paid on our vessels navigating the Elbe. Belgium, thus far, has paid the dues levied by the Dutch on our vessels navigating the Scheldt, on their way to and from Antwerp. But now that Belgium proposes to extinguish the payment of these Scheldt dues, Gov. Seward has had a treaty concluded, by which the United States are to contribute $500,000 as their proportion of the total sum to be paid Holland.

HOMESTEAD LANDS TAKEN UP IN NEBRASKA.—At the Omaha District in Nebraska, over 100,000 acres of land were taken up during the month of December, under the Homestead Law, and the cash receipts on the same at that office were $12,000.

VOLUME 7. JANESVILLE, WIS., WEDNESDAY, JANUARY 27, 1864. NUMBER 273.

ARMOR FOR IRON-CLADS.—The attention which the invention of a new armor for iron-clads has created in New-York, deserves some notice. The gentleman who discovered the plan for putting wood over the iron, went to the Navy Department in New York, and at his request a target was made on his principle. It was fired at and found to be a complete failure, as the ball went right through and through it just as though it had been a piece of pasteboard, and had the experiment resulted differently it is possible that a vessel would be built armored in this way.

CLOTHING ACCOUNTS FOR VOLUNTEERS.—In the settlement of the clothing accounts of volunteers whose periods of service have been less than one year, they will be entitled to the following credit for the different periods of service, viz:

| | |
|---|---|
| Three months' service | $23 93 |
| Six months' service | 35 32 |
| Nine months' service | 40 34 |

BANK COMPTROLLER'S REPORT.—We give below a summary of the Bank Comptroller's Report, showing the condition of the Banks in the State on the 4th day of January, 1864:

| | |
|---|---|
| Capital | $3,597,000 00 |
| Circulation | 2,531,778 00 |
| Deposits | 5,465,430 78 |
| Specie | 321,077 85 |
| Cash Items | 98,686 99 |
| Public Securities | 2,814,625 00 |

STRUGGLING AT THE SOUTH.—Whilst the veterans in the Federal service are re-enlisting almost to a man, and the army is being rapidly reinforced by new recruits, the greatest anxiety prevails among the rebels to escape from the ranks. This fact is attested by the rebel newspapers. The Richmond *Dispatch* of the 4th inst. says:

A gentleman who has traveled of late extensively in the Confederacy informs us that he has met everywhere a vast number of soldiers—as large a number, he thinks, as there is in camp—who are now absent from their duty. This agrees with the reports we receive from every quarter, and which are confirmed by the declarations of the Secretary of War, that the larger part of the army are absent from their posts. A friend of ours met lately with fifteen able-bodied gentlemen in one group who had managed to obtain trifling contracts, or be detailed, or obtain some other pretext for escaping their duties in the field. In some of the counties in Virginia we hear that service in the ranks is looked upon as disreputable, and that the man is considered green who cannot keep his sons or pets out of the army.

A REBEL BRIGADIER.—Hon. E. W. Gantt, of Arkansas, formerly Member of Congress from that State and subsequently a rebel Brigadier, is now making speeches on the war. As an instance of the intense desire of the people to be rid of slavery, he says that he lately addressed 800 Arkansas soldiers returned from Mr. Price's army, representing a fourth of the State, and containing men of wealth and influence, judges, professional men, &c. At the close he took a vote on the question of returning to allegiance to the old Government *without* slavery. "And how many votes, think you," he asks, "were given in favor? *Just eight hundred!*" Some people at the North, he closes by saying, think he doesn't represent Arkansas: "but they will soon see that I do." He predicts that in four months time Arkansas will be back under the old flag with the curse of negro slavery removed.

It is gall and wormwood to the Copperheads to read such items as the above.—The destruction of slavery is the destruction of their fondest hopes. What is there for the old, rotten, corrupt hulk of Democracy to float in when slavery gives place to Freedom?

CLOTHING FOR SOLDIERS SENT BY MAIL.—The following bill having passed both Houses, now only awaits the President's signature to become a law:

Articles of clothing being manufactured of wool, cotton, or linen, and compressed in a package not exceeding two pounds in weight, addressed to any non-commissioned officer or private serving in the armies of the United States, may be transmitted in the mails of the United States at the rate of eight cents, to be in all cases prepaid, for every four ounces, or any fraction thereof, subject to such regulations as the Postmaster-General may prescribe.

—Wooden weddings are taking the place of tin weddings. One of these new fangled concerns came off not a great distance from here recently, and the gifts were water pails, cradles, clothes pins, boot-jacks, wash tubs and rolling pins, potato mashers and rat traps, beef steak maulers and match safes, sugar boxes and wash boards, wooden trumpets and jumping jacks, wooden shoes and cord wood, etc., etc.

PRIZE CROPS.—E. S. Hayward, Brighton, N. Y., has been awarded by the Monroe County Agricultural Society prizes for the following crops: Ratabagas, 776 bushels per acre; profit $133,88. Barley, 40 4-10 bushels per acre; profit, $23,27. Potatoes, 290 bushels per acre; profit, $74,44. Carrts, 529 bushels per acre; profit, $108.

—Guns are a drug now. Many foreign muskets imported on speculation are going back; and a lot of 10,500 Austrian muskets, destined for the rebels, but captured by the Government, were sold at auction in Boston the other day for $3.50a3.75 each.

—We learn, says the Washington *Republican*, that when the first Greek-fire shell from GILLMORE'S batteries exploded in Charleston, a contraband who witnessed the spectacle jumped up, and, clapping his hands, exclaimed, "See dar! hell hab laid an egg!"

—The Boston *Traveler* says the news by the last steamer confirms the statement that there are not emigrant ships enough to bring the hundreds over who are waiting to come to this country. It is said that the boarding houses in Liverpool are full of people waiting for passage to the United States.

—Would a promissory note which is made payable at sight be a legal tender to an inmate of a blind asylum?

PARDONS.—The pardons and commutations of sentence granted by Governor Salomon during the year 1863, number forty.

## LOCAL MATTERS.

DENTAL FACTORY.—On account of the recent change and re-opening of the Myers House, Dr. Burrus has moved the *Dental Factory* a few steps east, over McKey's store, where everything will be found in running order and no extra charge for gas.

TAKE NOTICE.—The Ladies' Aid Society will meet to-morrow at their rooms, from 10 o'clock A. M. to 5 P. M. A full attendance is earnestly requested, as there is business of importance to be brought before the Society. H. ANN BURGESS, President.

PROMOTED.—We are pleased to learn that Sergeant Henry C. Miles of the 1st Illinois regiment, has been promoted to a First Lieutenantcy in the Thirty-fifth Wisconsin. Lieut. M. has been in the service for over two years, and has acquitted himself with marked honor. His present promotion, we trust, is only the stepping stone to further advancement.

NEW PAPER.—Mr. J. A. Smith, proprietor of the Fond du Lac *Commonwealth*, has started a paper in Ripon called the Ripon *Commonwealth*, which succeeds the *Prairie City Record*. The first number has reached us, and presents a very neat appearance. The people of Ripon have reason to congratulate themselves on having so good a paper to advocate their interests.

THE CARD OF DR. HALE.—In our special notice column will be found the card of Dr. Hale, embracing in it the certificates of some of our well known citizens, giving their testimony to the efficacy of the treatment of Dr. H., for chronic ailments. The Doctor has removed from the Myers House, and now has a handsome suit of rooms over Colwell's drug store.

LOCAL NEWS.—We should be greatly obliged to our friends in the neighboring towns for any items of news that would be of general interest to our readers. Their own good taste will suggest to them what we want in this line. Let their items be short and to the point, and of such matters as they themselves would be interested in hearing from others.

A DESPARATE AFFRAY occurred on Wednesday last, on the Northwestern Railroad, between some soldiers of the 8th and 12th Illinois cavalry, resulting in the death of Edward Dunn, and the serious injury of John Eagan. The quarrel began on the cars before they reached Jefferson, and was caused by one of the soldiers of the 12th accidentally stopping upon the toes of Trute, one of the 8th. The entire party was involved in the quarrel, those of the 12th being pitted against those of the 8th.

NEW BOOKS.—"The Red Eric; or the Whaler's Last Cruise" is a handsome volume of 420 pages, just published by Crosby & Nichols, Boston.

"Papers for Thoughtful Girls" is the title of another book of 344 pages, published by the same house. Both these volumes are more especially adapted to the younger portion of the community, and are very interesting. They are for sale by Sutherland.

SINGULAR.—We were to-day informed by Mr. H. B. Daily, of a remarkable circumstance which occurred at Beloit—an incident of the recent heavy snow storm. A Mrs. Palmer of that place had some valuable chickens, two of which were missing the morning after the storm. It was supposed they were snowed in and had died, but fourteen days afterward, in digging away a snow bank, one of them was found alive and apparently as well as usual. Search was then made for the other, which was found the next day, it having been buried fifteen days, but did not appear to to be the least injured by its long incarceration in its snow prison.

A Quartermaster Punished for Neglect of Duty!

### FROM WASHINGTON.

WASHINGTON, Jan. 26.—Prominent Germans from the West arrived here who represent that the Germans have resolved to put in the field for the Presidency a candidate irrevocably committed to the destruction of slavery. The House committee will to-morrow report a bill establishing substantially the post office order system of England. It is said that General Auger will go to the field and Gen. Sickles be commander of the defences of Washington. The President to-day restored Gen. McClernand to his rank and ordered him to report to Gen. Banks.

Special to *Tribune*.—A continual stream of deserters are pouring into our lines from the rebel army. Sunday evening 20 came in, and to-day, Tuesday, 30 more.

The Naval Committee of the House are in favor of a navy-yard for iron-clads at League Island, Delaware river.

### ARMY OF THE POTOMAC.

The *Herald's* Army of the Potomac dispatch reports Gen. Meade, who has been ill in Philadelphia, recovering, and will soon resume his command. It is said the firing on Saturday last across the Rapidan, was caused by an attempt of a regiment or two to desert. None of our forces were out at the time.

### FROM TENNESSEE.

NASHVILLE, Jan. 26.—Gen. Rousseau lately received information that a brigade of rebel cavalry under Forrest, with a battery of artillery, were about to cross the Tennessee river at Florence, Ala., for the purpose of a raid through Middle Tennessee. He made preparations to receive them, strengthening his posts and scouting the country.

This evening, Col. Wisnor, at Columbia, telegraphed that the enemy had taken Athens and was moving on Columbia.—This morning, pickets at Columbia were attacked by a rebel squad coming from the direction of Mount Pleasant.

It is thought Forrest is moving around Columbia, endeavoring to destroy the Nashville Northwestern railroad and obstruct river navigation.

### FROM INDIANAPOLIS.

CINCINNATI, Jan. 27.—A public reception was given the veteran soldiers at Indianapolis, yesterday.

A dispatch from Bridgeport, Ala., says, desertions are unusually large.

### FROM KENTUCKY.

CINCINNATI, Jan. 27.—The last ballot for U. S. Senator from Kentucky, in the Legislature, yesterday, stood Guthrie 51, Bell 42, Bowman 38—Buckner withdrawn.

A Louisville special says the steamer *Henry Fitzhugh*, from Nashville to Cincinnati, was sunk by ice on the 22d, at Shientown—total loss. She had on board 193 bales of cotton for Cincinnati.

The ice gave way at Louisville yesterday, sinking five coal boats, and carrying twenty-four barges over the falls.

Captain Samuel Black, Quartermaster, sentenced by court martial at Louisville, is to be dismissed from the service, with loss of pay, allowances due, to pay a fine of ten thousand dollars and imprisonment for two years. The charges were, neglect and violation of duty, conduct unbecoming an officer, making false reports, &c.

At the Louisville Circuit Court, yesterday, a suit against the Adams Express Company to recover money seized by John Morgan at Cave City, the court decided that guerrillas are common enemies, and that as such a common carrier is not responsible for goods seized by them.

### FROM FORTRESS MONROE.

WASHINGTON, Jan. 26th.—The following has been received at the War Department:

FORTRESS MONROE, Jan. 25.

*To Hon. E. M. Stanton*:—Brigadier General Graham, by my direction, went with three armed transports and a competent force, to the Peninsula, made a landing on the James river, several miles below Fort Powhattan, known as the Brandon farms, and captured twenty-two of the enemy, seven of the signal corps, and seventy-nine negroes. They also destroyed 24,000 pounds of pork, and large quantities of oats and corn, captured a sloop and a schooner, 240 boxes of tobacco, and five Jews preparing to run the blockade, and returned without the loss of a man.

### FROM THE SOUTH.

FORT MONROE, Jan. 27.—The Petersburg *Express* of the 22d, says, seven hospital buildings at Camp Winder, near Richmond, were burned yesterday. A large quantity of stores and clothing was destroyed. Unsuccessful attempts were made to burn the Presidential Mansion at Richmond, on Monday last.

The Charleston *Courier*, of Tuesday, says the bombardment of the city continues. Damage very small considering the number and weight of shot fired.

### FROM WASHINGTON.

WASHINGTON, Jan. 27.—SENATE.—Mr. Wilson reported back the bill giving bounties to soldiers enlisted prior to May, 1861.

Mr. Wilson called up the bill for promoting enlistments. Mr. Grimes' amendment was adopted, giving instead of two months' pay, such sums in bounty as the President shall order, not exceeding $100.

The resolution to expell Mr. Davis was taken up. Mr. Morrill addressed the Senate at length on the subject.

HOUSE.—The House proceeded to the consideration of the deficiency appropriation bill, as reported from Committee of the Whole, with amendments.

A bill was passed appropriating money to pay the Indian and other pensions for the fiscal year ending June 30th, 1865.

The House disagreed to the amendment to suspend work on the Capitol and Assay buildings. The bill passed with only four negative votes.

### FROM LEAVENWORTH.

LEAVENWORTH, Jan. 26.—The troops at Fort Gibson are reported on half rations, owing to the defective supply system. Forage is also very scarce. The Kansas legislature have welcomed General Curtis, by a unanimous vote, as a General of military renown and tried loyalty

BRIDGEPORT, Ala., Jan. 26.—The numbers of deserters from the enemy are unusually large. They all tell the same tale of the soldiers' determination to serve the Confederacy no longer than the expiration of their term of service.

The rebels all around Ottawah, and Harrison are conscripting recruits.

The 22d Indiana, 51st Illinois, 23d Kentucky, and 15th Ohio re-enlisted.

Over forty rebel deserters came in in one squad, yesterday.

SPECIAL NOTICE.

CONSUMPTION—CAN IT BE CURED?

Incipient consumption, or consumption in its first and second stage, before the lungs are broken down, can be cured by the new remedies.

The following statement is from Mr. D. R. STOUT, an old citizen of Janesville, at present a salesman in M. Marsh's "Young America Clothing House." I am thus specific in my statement, that those who wish may easily find any person from whom I receive and publish a certificate. They are not statements made to order, of fictitious persons, for the purpose of deceiving the afflicted.

"For the last year prior to the time Dr. Hale took my case in hand, I was badly afflicted with a throat and lung disease, that gave me serious trouble, and considerable fears that it might terminate in confirmed consumption. At this time, Saturday, Nov. 7th, 1863, I went to Dr. Hale and was examined. He told me my case was serious, might soon terminate fatally if the disease was not promptly arrested, in fact that I was in the second stage of consumption. I did not at the time commence treatment, for the reason that Dr. Hale had been here but a short time, and I had not sufficient confidence to employ him. But I continued to grow worse so fast, and had tried patent medicines until I knew it done me no good, on Saturday, November 14th, I placed myself under Dr. Hale's care.

"I was under Dr. Hale's care from Nov. 14th to Dec. 29th, at which time he pronounced me cured. I can say that I believe I am permanently cured. I have no cough, no pain or soreness in the lungs or chest, and have gained in the last month 10 pounds in flesh, and am enjoying as good health in every respect as I ever did in my life. I have delayed giving this statement some time, for the purpose of becoming satisfied that my cure was permanent, but I have no doubts any longer but what my disease is permanently removed.

"D. R. STOUT."

CATARRH—CAN IT BE CURED?

JANESVILLE, Jan. 26, 1864.

For several years I have been troubled with nasal catarrh and throat disease; a hacking and troublesome cough that gave me considerable trouble and pain, and some fears that it would terminate in fatal consumption; frequent and serious attacks of sick headache, blurring of the sight, dyspepsia and distress in the stomach.

I have tried several physicians, and a number of advertised remedies, but found no permanent relief; and could not even find out the nature of my disease. As soon, however, as I read Dr. Hale's description of catarrh I knew what was the matter with me, and immediately put myself under his care.

After six weeks' treatment by Dr. Hale, I am happy to make the assertion that I believe myself entirely cured, at least I have not for some time past, nor do I at present, feel any symptoms of my former disease, and candidly believe the difficulty is radically removed.

BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The fellies are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

## "Propositions for Peace."

THE ADMINISTRATON would have the war go on until the south is abolitionized; the democracy would have the war cease so soon as the rebellious people and states shall prove their disposition to resume their places in the Union, and obey the laws. Under the administration plan of amnesty the war may go on indefinitely. Under the plan of the opposition, the war might be essentially ended to-morrow and forever.

The above extract is a portion of the concluding paragraph of an article in the Milwaukee *News*, headed "Propositions for peace." However the administration may feel about having "the war go on until the South is abolitionized." one this is certain and that is, that the people are prepared for and will submit to nothing but the utter eradication of the curse of slavery which has cost us all the woe and bloodshed entailed by this war. These traffickers in human blood, by taking up arms against the Government, have thrown themselves outside the pale of the constitution, and now no act of theirs; no whining, hypocritical cant on the part of their copperhead allies, can save the "institution" upon which they so fondly dote.—We trust and believe the war will go on until the rebels are subdued and the last chain has fallen from the fettered limbs of slaves. Then the country will stand purified and redeemed from the withering curse which has always been its bane and has well-nigh proved its ruin. But to think that "under the plan of the opposition the war might be essentially ended to-morrow and forever." What a tempting prospect under the "plan" of the "opposition."—A plan to break down our own government; a plan to destroy its financial credit; a plan to abuse and vilify the brave officers and men fighting our battles; a plan to play persistently into the hands of *the rebels* now, with a forlorn hope that slavery and slave institutions may occupy a dominant place in the affairs of the nation in the future as they have done in the past, or failing in that, to allow its dismemberment. With the thunderings of the war cloud still sounding in our ears; with the moaning of our wounded heroes, wafted to us from a hundred battle-fields, and the heavy heart-aches for those who are not, we should indeed be worthy of utter annihilation if we adopted the "plan" of the opposition to retain slavery, when it is the sole cause of our woes. Excuse us, Mr. *News;* God has willed it otherwise and the people, even though reluctantly, have said amen. The gangrene of this slavery sin has been so deep in the national body that nothing save the lurid fires of the battle field could burn it out; and now that the cauterizing iron has been applied, we believe it should touch the deepest spot of decay, that health and beauty may spring up in the place thereof.

THE DOOR OPENED.—The Copperheads have been long begging the Government to fight the rebels with olive branches. Well, the President has finally concluded to try the virtue of that method, and henceforth the Amnesty Proclamation! And it is answering a very good purpose, too. Thousands of the people of the South have accepted of its terms, and whole States are preparing to return to the Union under its protection. But what credit does Mr. Lincoln get from the Copperheads, for his magnanimity and statesmanship? Not a stiver's worth! Just in the proportion that they see the door is opened for the restoration of the revolting States to the Union again, with honor and safety—just in that degree they howl against the Administration, and, in fact, repudiate their own doctrines. They are not half as anxious to fight with olive branches as they were before. What can be the use of trying to please such malcontents?

TRADE AND COMMERCE OF NEW YORK.—The following interesting exibit is given of the exports, imports and custom revenue of the port of New York, for the seven years ending December 31st, 1863:

| | *Exports.* | *Imports.* | *Cus'm Rev'e.* |
|---|---|---|---|
| 1857 | $117,024,300 | $230,618,500 | $35,639,100 |
| 1858 | 85,630,600 | 152,867,100 | 28,746,700 |
| 1859 | 137,090,200 | 215,165,500 | 38,833,200 |
| 1860 | 145,098,500 | 238,310,500 | 35,977,300 |
| 1861 | 143,831,100 | 102,702,900 | 21,715,100 |
| 1862 | 216,371,800 | 174,602,200 | 52,254,100 |
| 1863 | 220,460,100 | 188,881,300 | 53,886,100 |

The exports of the past year show an increase over the lowest year in the seven of about seventy-five per cent., while the imports are fifty millions below the highest year.

The revenue from customs in 1863 was nearly three times as large as in 1861, the first year of the war, and twenty millions higher than in 1859, the heaviest year of the peace years in the seven.

SEIZURES AT NORFOLK.—At Norfolk Maj-Gen. Butler seized forty-eight barrels of Whisky transported into his Department against his orders, belonging to Zanzinger & Co., of Norfolk. The whisky was sold at auction and brought from $7,50 to $8,75 per gallon. Their store was also closed and a fine of $1,000 imposed. Gen. Butler also sold two thousand pounds of tobacco in the hands of a professed Union man who had run it through the blockade.

GEN. GRANT ON THE WAR.—The well-informed correspondent of the New York *Times* says that General Grant declares that the war should be ended by the 4th of July next. General Grant's predictions in this respect have a merit that those of many eminent civilians lack—he is able to do much himself towards making them true.

THE CALIFORNIA MINES.—During the last year the California mines have moderately increased on their productions. It is estimated that $52,500,000 in treasure have arrived at San Francisco. Of this amount, $12,000,000 came from Washoe; $5,000,000 from Oregon, Idaho, Washington, and British Columbia; $2,000,000 from Mexico, and the balance from this State. The exports of treasure, as shown by the manifests of steamers and sailing-vessels, were $46,000,000, of which $28,500,000 went direct to England, and $4,000,000, to China, and $2,000,000 to Mexico.

## What Shall we do With the Negroes?

This question used to be considered a poser by the democratic politicians, whenever they got into an argument with the friends of emancipation, and we are sorry to say that many were ready to yield to it and go to devising ways by which the slaves might be colonized and thus got out of the way. The easiest and truest answer to the question is, "let them alone. You needn't do any thing with them. They have given abundant proof that they are capable of taking care of themselves." But the experience of the slave holders themselves is solving this difficulty in a most satisfactory manner, and we expect to see the day soon come when they will be the most radical anti-slavery men we have. A Washington correspondent of the Nashville *Union* gives the substance of his conversation with several slave-holders in the District of Columbia, which is pertinent to this subject. He says:

Many of our friends in Tennessee are asking, with much solicitude, what shall we do with the slaves when liberated? Let me give the substance of conversations which I have had with several late slave-holders, who reside in this District, and after an experience of negro freedom for over two years, thus bear testimony in this important case. I inquired of these gentlemen, all of high social position, as follows:

"What has been the general effect of emancipating the slaves in this District?"

"Decidedly beneficial to both master and slaves."

"Have you suffered any considerable social convulsion in consequence?"

"Not at all; matters have progressed as smoothly as ever,"

"Are negroes insolent and lawless?"

"Not so much so as formerly. They feel that they are now standing on their good behavior alone."

"Have you much trouble in procuring laborers?"

"None at all; the negroes work readily and faithfully for wages. They do their work better than ever, because they know that they must fulfill their contracts or get no pay."

"Do the people regret the change which emancipation has effected?"

"No; hardly one man in the whole district, except a few politicians, who would vote for the restoration of slavery. Mr. —— and Mr. ——, who were both large slave-owners, and opposed emancipation bitterly, now declare openly that they never want slavery restored."

Certainly this evidence is important, and worth the consideration of Tennesseeans. Let us act honestly towards the slave and the consequences will take care of themselves. Let us offer "greenbacks" instead of cowhides to the negro, and he will work with fresh alacrity and hope. He has a soul; let us treat him accordingly. If we use our numercial superiority to rob him of his rights and defraud him of his wages, we shall pull down upon our children's heads the just penalty of our guilt, amid the merciless tempests of a social revolution.

WITTY REPROOF.—A witty suggestion is often more effective in the way of reproof than a sharp rebuke. Mrs. Stowe tells a good story of an old minister, who had been unable to keep some thievish boys out of his peach orchard, till he managed to reach their consciences by an apt and witty story in the pulpit:

Old Father Morris sometimes used his illustrative talent to very good purpose in the way of rebuke. He had on his farm a fine orchard of peaches, from which some of the ten or twelve-year-old gentlemen helped themselves more liberally than even the old man's kindness thought expedient. Accordingly, he took occasion to introduce into his sermon on Sunday, in his little parish, an account of a journey he took, and how he was very warm and dry, and how he saw a very fine orchard of peaches which made his mouth water to look at them.

"So," says he, "I came to the fence, and looked all around, for I would not have touched one of them *without leave* for all the world. At last I espied a man, and says I: 'Mister, won't you give me some of your peaches?' So the man came and gave me nigh about a hatful. And while I stood there eating, I said, 'Mister, how do you manage to keep your peaches?'

"Keep them!' said he, and stared at me. "What do you mean?"

"Yes, sir," said I. "Don't the boys steal them?"

"Boys steal them!" said he. "No, indeed!"

"Why, sir," said I, "I have a whole lot full of peaches, and I cannot get half of them [here the old man's voice became tremulous], because the boys in my parish steal them so."

"Why," said he, "don't their parents teach them not to steal?"

"And I grew all over in a cold sweat, and I told him I was afraid they didn't."

"Why, how you talk!" says the man. "Do tell me where you live."

"Then," said Father Morris, the tears running down. "I was obliged to tell him I lived in the town of G."

After this, Father Morris kept his peaches.

IN WILTON, N. H., December 15th, the three churches, Unitarian, Trinitarian and Baptist, united in observing the Centennial Anniversary of the organization of the First Church. The services were held in the Unitarian Church, at the center of the town. A large congregation, many of whom were from adjoining towns, was present. A historical discourse was preached by the Pastor of the Second Church, clergymen of the three denominations represented taking part in the exercises. After the services, the congregation repaired to the Town Hall, led by the Wilton Cornet Band. A free, bountiful collation was partaken of, after which letters were read from former pastors and natives of the town; appropriate sentiments were responded to by clergymen and others.

IT OUGHT TO BE KNOWN.—The Government will furnish each soldier who loses a limb in its service with another, and take care of him while the limb is being fitted. There are soldiers about soliciting funds to enable them to get an artificial arm or leg, and need only to make their wants known to the Medical Director, No. 458 Broome street, New York.

TELEGRAPH FROM EUROPE TO AMERICA.—The Russian Government have commenced putting up telegraphic wires from St. Petersburg to the mouth of the Amoor, a distance of 12,000 miles, which is expected to be completed by the middle of next year. The United States Government are to connect with this line; and so, by a circuit of 20,000 miles, reach England.

HOW MORGAN ESCAPED.—There have been a great many speculations respecting the hole through which John Morgan escaped from the Penitentiary at Columbus. The message of Gov. Tod puts an end to the vexed question. His Excellency announces that John Morgan escaped *through a misunderstanding.* This is official. We of course give it up.—*Prentice.*

## "A Few Facts."

[From the New York Post.]

Under this head the Richmond *Whig* of a recent date presents the following facts illustrative of the rebel condition: Three thousand men in Longstreet's corps are barefoot; Johnston's army is suffering terribly for want of blankets and clothing; Lee's soldiers are destitute of socks and other necessary clothing; and the whole energies of the Confederacy are summoned to supply the demand; the prospect for clothing next year is dark and gloomy; it cannot be got through the blockade, and there are no materials in the home market. The sources both of leather and wool are diminishing every month; the supply of food is equally scant; very little bacon is left; beef is going, and mutton would not feed great armies, even could it be had; the crops are failing, and prices constantly going up; besides, there is no labor, without which there can be no production; the conscription is taking to the ranks all the whites, and the negro will not work. Even if he would, he could not prevent famine, which would *bring* insurrection with it. Then, without crops, horses cannot be fed, and an army without horses is a man without limbs.

Even now, horses sufficient to serve the purposes of the existing army are obtained with the greatest difficulty, so that it is utterly impossible to double the army and increase the trains, as some extravagantly talk of doing; still further, besides wagons and trains, muskets, cannon and ammunition must be had, and those it is not possible to procure. There is now only a bare sufficiency of muskets and cannon to supply present needs, and as to ammunition, since Charleston and Wilmington have been closed, and the nitre beds of Tennessee torn from the rebel grasp, the supply can never be more than equal to the demands of the present army.

What a showing is this for the rebellion which started with such great expectations? "An army poorly clad"—we use the language of the *Whig*—"scantily fed, indifferently equipped, badly mounted, with insufficient trains, with barely enough ammunition," and with *nothing* but want, suffering and defeat before it—this is the dependence, and the one dependence of the rebel leaders, who, three years ago, promised to water their horses in the Delaware river and flaunt their banner from the capitol of the nation.

## SENSE AND NONSENSE.

—Canon-izing a man appears to signify making a big gun of him.

—The wife of a bankrupt merchant at London had fifty-two yards of silk in one dress. No wonder the poor fellow was unable to pay his debts.

—A Jerseyman was lately arrested for flogging a woman, and excused the act by saying he was near-sighted, and thought it was his wife!

—The latest English joke—Wherefore is a hen cackling over her new-laid egg, like a magician? Because she is an-hen-chanter.

—What did William Tell's son say to his parent after the apple was shot from his head? "Father," said he, "I've had an arrow escape."

—"Where are you going?" asked a little boy of another, who had slipped on an icy pavement. "Going to get up!" was the blunt reply.

"I'm afraid you'll forget me, wife, when I'm away," said a brave volunteer. "Never fear, my dear; the longer you are away in your country's service the better I shall like you."

—"Have the jury agreed?" asked a judge of a court attachee whom he met upon the stairs with a bucket in his hand. "Yis," replied Patrick, "they have agreed to sind out for a half gallon."

—While a Welsh cause was lately being tried in one of the London courts, the counsel for the plaintiffs, though a Welshman, begged to be excused from pronouncing the name of the place where a coal mine under dispute was situated. It was spelled Llwywywywer,

—A cotemporary tells the story of an editor, who, finding the body of a man hanging to a lamp-post one night, after his own paper had gone to press, cut it down, and carried it home to prevent his rival from publishing the news, and was himself indicted for murder.

—The following specimen of letter-writing is given in an article on language, in "Good Words." The note was received after a tithe dinner in Devonshire: "Mr. T. presents his compliments to Mr. H., and I have got a hat that is not his, and if he has got a hat that is not yours, no doubt they are the expectant ones."

—President Lincoln, it is said, tells a good story on Ben. Wade, of Ohio. Wade told the President that he prayed during all of Buchanan's term that old Taney would not die during his administration, for fear Buck would fill the place with a copperhead. The Chief Justice holds out yet, and Wade says he fears he overdid the business,

—Bishop Morley was fond of a joke. Once, when the footman was out of the way, he ordered the coachman to fetch some water from the well, to which the coachman made a grumbling objection that his business was to drive, not to run errands. "Well, then," said Morley, "bring out the coach and four, set the pitcher inside and drive to the well," a service which was several times repeated, to the great amusement of almost the entire village.

—A lady teaching her little daughter, four years old, pointed to something in the book, and asked "What is that, my dear?" "Why, don't you know?" inquired the child. "Yes, said the mother; but I wish to find out if you know." "Well," responded the little miss, "I do know." "Tell me then, if you please," said the lady.—"Why no," insisted the little one, with an arch look, "You know what it is, and I know what it is, and there is no need of saying anything more about it."

WATER IN JERUSALEM.—It is proposed by a company to construct sewers and supply water conduits in the city of Jerusalem. There are still evidences remaining that water was once had there in great abundance. The great reservoir beneath the Temple 736 feet in circuit and 42 in depth, held two millions of gallons, and there are upwards of thirty smaller reservoirs connected with it. The Pool of Bethesda, now dry, contained 21,874,742 gallons; and the Pools of Solomon, about seven miles distant from the city, held 50,136,280,

THE WAY TO THE ALMSHOUSE.—A gentleman was once accosted on the Kensington road, London, by an elderly female. She had a small bottle of gin in her hand, and not knowing the way to the almshouse, at which she had business, said; "Sir—I beg your pardon—but is this the way to the almshouse?" The gentleman looked at her very earnestly, and, pointing to the bottle, gravely but kindly said, "No, my good woman, but *that* is."

## How the Soldiers Live in Winter.

A correspondent of the Pittsburgh *Chronicle*, writing from the camp of the 4th Pennsylvania regiment; at Dechard Station, Tennessee, thus describes how the men make themselves comfortable in winter:

"The camp is laid out in regular order, with an eye to health, comfort and beauty. The company streets are all one width—twenty feet. The houses of the enlisted men are all of one size and appearance, with a space between of two paces, and the same space between those of each company, while the internal arrangements are all nearly the same. Each house has two bunks and accommodates four men. The most of the houses are built of logs, some few of boards, but the dimensions of all are the same. Each house is provided with a fireplace and chimney, built of brick, in the rear, opposite the centre, while the door opens out in front, opposite the centre, to the company street.

"Now let the reader imagine one company having twenty-four houses, each other company having the same number, the dimensions of each the same, and as follows: ten feet long, eight feet wide, and four feet high, with four shelter tents for a covering, having a regular pitch, forming the roof. Place twelve of these on a line, fronting lengthwise, with a space of two feet between each—the door of each opening out on that line opposite the centre of the house, while opposite the door in the rear of the house is the fireplace and chimney; place on a parallel line, leaving a space of twenty feet in front, the other twelve huts, fronting also lengthwise on said line, similar to those on the first line, with the exception of the front of each house, which is reversed, so that the doors of each row front the other, leaving the space twenty feet between the two rows of houses. This space is called the company street. The company kitchen, five feet longer than a company hut, but other dimensions the same, is also built fronting on the first line, on the left of the first row, leaving a space of ten feet from the left."

All are invited to call and investigate DR. HALE's mode of treatment, practiced by no other physician. Consultation free

THE

### BADGER DRILL!

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, *from the forests of Indiana. The poles and rolls are* dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

**THE POINTS ARE CAST STEEL,**

from the celebrated Sheffield works of Singer, Nimick & Co. The felloes are from the Ohio State Prison, located at Columbus, Ohio. *The spokes* are of dry white oak, from Northern Wisconsin. *The chains* are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

*That it will* distribute any kind of grain grown in this region. That it will

**Plant Corn in Rows or in Hills!**

*Any distance apart, from three to six feet.*

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

*Prices of the Badger for 1864:*

### "Propositions for Peace."

THE ADMINISTRATON would have the war go on until the south is abolitionized; the democracy would have the war cease so soon as the rebellious people and states shall prove their disposition to resume their places in the Union, and obey the laws. Under the administration plan of amnesty the war may go on indefinitely. Under the plan of the opposition, the war might be essentially ended to-morrow and forever.

The above extract is a portion of the concluding paragraph of an article in the Milwaukee *News*, headed "Propositions for peace." However the administration may feel about having "the war go on until the South is abolitionized." one this is certain and that is, that the people are prepared for and will submit to nothing but the utter eradication of the curse of slavery which has cost us all the woe and bloodshed entailed by this war. These traffickers in human blood, by taking up arms against the Government, have thrown themselves outside the pale of the constitution, and now no act of theirs; no whining, hypocritical cant on the part of their copperhead allies, can save the "institution" upon which they so fondly dote.—We trust and believe the war will go on until the rebels are subdued and the last chain has fallen from the fettered limbs of slaves. Then the country will stand purified and redeemed from the withering curse which has always been its bane and has well-nigh proved its ruin. But to think that "under the plan of the opposition the war might be essentially ended to-morrow and forever." What a tempting prospect under the "plan" of the "opposition."—A plan to break down our own government; a plan to destroy its financial credit; a plan to abuse and vilify the brave officers and men fighting our battles; a plan to play persistently into the hands of the rebels now, with a forlorn hope that slavery and slave institutions may occupy a dominant place in the affairs of the nation in the future as they have done in the past, or failing in that, to allow its dismemberment. With the thunderings of the war cloud stillsounding in our ears; with the moaning of our wounded heroes, wafted to us from a hundred battle-fields, and the heavy heart-aches for those who are not, we should indeed be worthy of utter annihilation if we adopted the "plan" of the opposition to retain slavery, when it is the sole cause of our woes. Excuse us, Mr. *News;* God has willed it otherwise and the people, even though reluctantly, have said amen. The gangrene of this slavery sin has been so deep in the national body that nothing save the lurid fires of the battle field could burn it out; and now that the cauterizing iron has been applied, we believe it should touch the deepest spot of decay, that health and beauty may spring up in the place thereof.

THE DOOR OPENED.—The Copperheads have been long begging the Government to fight the rebels with olive branches. Well, the President has finally concluded to try the virtue of that method, and henceforth the Amnesty Proclamation! And it is answering a very good purpose, too. Thousands of the people of the South have accepted of its terms, and whole States are preparing to return to the Union under its protection. But what credit does Mr. Lincoln get from the Copperheads, for his magnanimity and statesmanship? Not a stiver's worth! Just in the proportion that they see the door is opened for the restoration of the revolting States to the Union again, with honor and safety—just in that degree they howl against the Administration, and, in fact, repudiate their own doctrines. They are not half as anxious to fight with olive branches as they were before. What can be the use of trying to please such malcontents?

TRADE AND COMMERCE OF NEW YORK.—The following interesting exibit is given of the exports, imports and custom revenue of the port of New York, for the seven years ending December 31st, 1863:

| | Exports. | Imports. | Cus'm Rev'e. |
|---|---|---|---|
| 1857 | $117,624,300 | $230,618,500 | $35,639,100 |
| 1858 | 85,639,600 | 152,807,100 | 28,740,700 |
| 1859 | 137,696,200 | 215,165,500 | 38,833,200 |
| 1860 | 145,688,500 | 238,240,500 | 35,977,300 |
| 1861 | 143,831,100 | 162,702,900 | 21,715,100 |
| 1862 | 216,371,800 | 174,662,200 | 52,254,100 |
| 1863 | 220,466,100 | 188,881,300 | 53,886,100 |

The exports of the past year show an increase over the lowest year in the seven of about seventy-five per cent., while the imports are fifty millions below the highest year.

The revenue from customs in 1863 was nearly three times as large as in 1861, the first year of the war, and twenty millions higher than in 1859, the heaviest year of the peace years in the seven.

SEIZURES AT NORFOLK.—At Norfolk Maj-Gen. Butler seized forty-eight barrels of Whisky transported into his Department against his orders, belonging to Zanzinger & Co., of Norfolk. The whisky was sold at auction and brought from $7,50 to $8,75 per gallon. Their store was also closed and a fine of $1,000 imposed. Gen. Butler also sold two thousand pounds of tobacco in the hands of a professed Union man who had run it through the blockade.

GEN. GRANT ON THE WAR.—The well-informed correspondent of the New York *Times* says that General Grant declares that the war should be ended by the 4th of July next. General Grant's predictions in this respect have a merit that those of many eminent civilians lack—he is able to do much himself towards making them true.

THE CALIFORNIA MINES.—During the last year the California mines have moderately increased on their productions. It is estimated that $52,500,000 in treasure have arrived at San Francisco. Of this amount, $12,000,000 came from Washoe; $5,000,000 from Oregon, Idaho, Washington, and British Columbia; $2,000,000 from Mexico, and the balance from this State. The exports of treasure, as shown by the manifests of steamers and sailing-vessels, were $46,000,000, of which $28,-500,000 went direct to England, and $4,-000,000, to China, and $2,000,000 to Mexico.

### What Shall we do With the Negroes?

This question used to be considered a poser by the democratic politicians, whenever they got into an argument with the friends of emancipation, and we are sorry to say that many were ready to yield to it and go to devising ways by which the slaves might be colonized and thus got out of the way. The easiest and truest answer to the question is, "let them alone. You needn't do any thing with them. They have given abundant proof that they are capable of taking care of themselves." But the experience of the slave holders themselves is solving this difficulty in a most satisfactory manner, and we expect to see the day soon come when they will be the most radical anti-slavery men we have. A Washington correspondent of the Nashville *Union* gives the substance of his conversation with several slave-holders in the District of Columbia, which is pertinent to this subject. He says:

Many of our friends in Tennessee are asking, with much solicitude, what shall we do with the slaves when liberated? Let me give the substance of conversations which I have had with several late slave-holders, who reside in this District, and after an experience of negro freedom for over two years, thus bear testimony in this important case. I inquired of these gentlemen, all of high social position, as follows:

"What has been the general effect of emancipating the slaves in this District?"

"Decidedly beneficial to both master and slaves."

"Have you suffered any considerable social convulsion in consequence?"

"Not at all; matters have progressed as smoothly as ever,"

"Are negroes insolent and lawless?"

"Not so much so as formerly. They feel that they are now standing on their good behavior alone."

"Have you much trouble in procuring laborers?"

"None at all; the negroes work readily and faithfully for wages. They do their work better than ever, because they know that they must fulfill their contracts or get no pay."

"Do the people regret the change which emancipation has effected?"

"No; hardly one man in the whole district, except a few politicians, who would vote for the restoration of slavery. Mr. —— and Mr. ——, who were both large slave-owners, and opposed emancipation bitterly, now declare openly that they never want slavery restored."

Certainly this evidence is important, and worth the consideration of Tennesseeans. Let us act honestly towards the slave and the consequences will take care of themselves. Let us offer "greenbacks" instead of cowhides to the negro, and he will work with fresh alacrity and hope. He has a soul; let us treat him accordingly. If we use our numercial superiority to rob him of his rights and defraud him of his wages, we shall pull down upon our children's heads the just penalty of our guilt, amid the merciless tempests of a social revolution.

WITTY REPROOF.—A witty suggestion is often more effective in the way of reproof than a sharp rebuke. Mrs. Stowe tells a good story of an old minister, who had been unable to keep some thievish boys out of his peach orchard, till he managed to reach their consciences by an apt and witty story in the pulpit:

Old Father Morris sometimes used his illustrative talent to very good purpose in the way of rebuke. He had on his farm a fine orchard of peaches, from which some of the ten or twelve-year-old gentlemen helped themselves more liberally than even the old man's kindness thought expedient. Accordingly, he took occasion to introduce into his sermon on Sunday, in his little parish, an account of a journey he took, and how he was very warm and dry, and how he saw a very fine orchard of peaches which made his mouth water to look at them.

"So," says he, "I came to the fence, and looked all around, for I would not have touched one of them *without leave* for all the world. At last I espied a man, and says I: 'Mister, won't you give me some of your peaches?' So the man came and gave me nigh about a hatful. And while I stood there eating, I said, 'Mister, how do you manage to keep your peaches?'

"Keep them!' said he, and stared at me. "What do you mean?"

"Yes, sir," said I. "Don't the boys steal them?"

"Boys steal them!" said he. "No, indeed!"

"Why, sir," said I, "I have a whole lot full of peaches, and I cannot get half of them [here the old man's voice became tremulous], because the boys in my parish steal them so."

"Why," said he, "don't their parents teach them not to steal?"

"And I grew all over in a cold sweat, and I told him I was afraid they didn't."

"Why, how you talk!" says the man. "Do tell me where you live."

"Then," said Father Morris, the tears running down. "I was obliged to tell him I lived in the town of G."

After this, Father Morris kept his peaches.

IN WILTON, N. H., December 15th, the three churches, Unitarian, Trinitarian and Baptist, united in observing the Centennial Anniversary of the organization of the First Church. The services were held in the Unitarian Church, at the center of the town. A large congregation, many of whom were from adjoining towns, was present. A historical discourse was preached by the Pastor of the Second Church, clergymen of the three denominations represented taking part in the exercises. After the services, the congregation repaired to the Town Hall, led by the Wilton Cornet Band. A free, bountiful collation was partaken of, after which letters were read from former pastors and natives of the town; appropriate sentiments were responded to by clergymen and others.

IT OUGHT TO BE KNOWN.—The Government will furnish each soldier who loses a limb in its service with another, and take care of him while the limb is being fitted. There are soldiers about soliciting funds to enable them to get an artificial arm or leg, and need only to make their wants known to the Medical Director, No. 458 Broome street, New York.

TELEGRAPH FROM EUROPE TO AMERICA.—The Russian Government have commenced putting up telegraphic wires from St. Petersburg to the mouth of the Amoor, a distance of 12,000 miles, which is expected to be completed by the middle of next year. The United States Government are to connect with this line; and so, by a circuit of 20,000 miles, reach England.

HOW MORGAN ESCAPED.—There have been a great many speculations respecting the hole through which John Morgan escaped from the Penitentiary at Columbus. The message of Gov. Tod puts an end to the vexed question. His Excellency announces that John Morgan escaped *through a misunderstanding.* This is official. We of course give it up.—*Prentice.*

### "A Few Facts."

[From the New York Post.]

Under this head the Richmond *Whig* of a recent date presents the following facts illustrative of the rebel condition: Three thousand men in Longstreet's corps are barefoot; Johnston's army is suffering terribly for want of blankets and clothing; Lee's soldiers are destitute of socks and other necessary clothing; and the whole energies of the Confederacy are summoned to supply the demand; the prospect for clothing next year is dark and gloomy; it cannot be got through the blockade, and there are no materials in the home market. The sources both of leather and wool are diminishing every month; the supply of food is equally scant; very little bacon is left; beef is going, and mutton would not feed great armies, even could it be had; the crops are failing, and prices constantly going up; besides, there is no labor, without which there can be no production; the conscription is taking to the ranks all the whites, and the negro will not work. Even if he would, he could not prevent famine, which would bring insurrection with it. Then, without crops, horses cannot be fed, and an army without horses is a man without limbs.

Even now, horses sufficient to serve the purposes of the existing army are obtained with the greatest difficulty, so that it is utterly impossible to double the army and increase the trains, as some extravagantly talk of doing; still further, besides wagons and trains, muskets, cannon and ammunition must be had, and these it is not possible to procure. There is now only a bare sufficiency of muskets and cannon to supply present needs, and as to ammunition, since Charleston and Wilmington have been closed, and the nitre beds of Tennessee torn from the rebel grasp, the supply can never be more than equal to the demands of the present army.

What a showing is this for the rebellion which started with such great expectations? "An army poorly clad"—we use the language of the *Whig*—"scantily fed, indifferently equipped, badly mounted, with insufficient trains, with barely enough ammunition," and with nothing but want, suffering and defeat before it—this is the dependence, and the one dependence of the rebel leaders, who, three years ago, promised to water their horses in the Delaware river and flaunt their banner from the capitol of the nation.

### SENSE AND NONSENSE.

—Canon-izing a man appears to signify making a big gun of him.

—The wife of a bankrupt merchant at London had fifty-two yards of silk in one dress. No wonder the poor fellow was unable to pay his debts.

—A Jerseyman was lately arrested for flogging a woman, and excused the act by saying he was near-sighted, and thought it was his wife!

—The latest English joke—Wherefore is a hen cackling over her new-laid egg, like a magician? Because she is an-henchanter.

—What did William Tell's son say to his parent after the apple was shot from his head? "Father," said he, "I've had an arrow escape."

—"Where are you going?" asked a little boy of another, who had slipped on an icy pavement. "Going to get up!" was the blunt reply.

"I'm afraid you'll forget me, wife, when I'm away," said a brave volunteer. "Never fear, my dear; the longer you are away in your country's service the better I shall like you."

—"Have the jury agreed?" asked a judge of a court attachee whom he met upon the stairs with a bucket in his hand. "Yis," replied Patrick, "they have agreed to sind out for a half gallon."

—While a Welsh cause was lately being tried in one of the London courts, the counsel for the plaintiffs, though a Welshman, begged to be excused from pronouncing the name of the place where a coal mine under dispute was situated. It was spelled Llwyrwywywer.

—A cotemporary tells the story of an editor, who, finding the body of a man hanging to a lamp-post one night, after his own paper had gone to press, cut it down, and carried it home to prevent his rival from publishing the news, and was himself indicted for murder.

—The following specimen of letter-writing is given in an article on language, in "Good Words." The note was received after a tithe dinner in Devonshire: "Mr. T. presents his compliments to Mr. H., and I have got a hat that is not his, and if he has got a hat that is not yours, no doubt they are the expectant ones."

—President Lincoln, it is said, tells a good story on Ben. Wade, of Ohio. Wade told the President that he prayed during all of Buchanan's term that old Taney would not die during his administration, for fear Buck would fill the place with a copperhead. The Chief Justice holds out yet, and Wade says he fears he overdid the business.

—Bishop Morley was fond of a joke. Once, when the footman was out of the way, he ordered the coachman to fetch some water from the well, to which the coachman made a grumbling objection that his business was to drive, not to run errands. "Well, then," said Morley, "bring out the coach and four, set the pitcher inside and drive to the well;" a service which was several times repeated, to the great amusement of almost the entire village.

—A lady teaching her little daughter, four years old, pointed to something in the book, and asked "What is that, my dear?" "Why, don't you know?" inquired the child. "Yes, said the mother; but I wish to find out if you know." "Well," responded the little miss, "I do know." "Tell me then, if you please," said the lady.—"Why no," insisted the little one, with an arch look, "You know what it is, and I know what it is, and there is no need of saying anything more about it."

WATER IN JERUSALEM.—It is proposed by a company to construct sewers and supply water conduits in the city of Jerusalem. There are still evidences remaining that water was once had there in great abundance. The great reservoir beneath the Temple 738 feet in circuit and 42 in depth, held two millions of gallons, and there are upwards of thirty smaller reservoirs connected with it. The Pool of Bethesda, now dry, contained 21,874,742 gallons; and the Pools of Solomon, about seven miles distant from the city, held 50,-130,280.

THE WAY TO THE ALMSHOUSE.—A gentleman was once accosted on the Kensington road, London, by an elderly female. She had a small bottle of gin in her hand, and not knowing the way to the almshouse, at which she had business, said: "Sir—I beg your pardon—but is this the way to the almshouse?" The gentleman looked at her very earnestly, and, pointing to the bottle, gravely but kindly said, "No, my good woman, but *that* is."

NATIONAL BANKS.—The following National Banks have been established; Second National Bank, Sandusky, Ohio—capital $100,000; First National Bank, Lockport, N. Y.—capital $100,000; First National Bank, Kenosha, Wis.—capital $50,-000.

### How the Soldiers Live in Winter.

A correspondent of the Pittsburgh *Chronicle*, writing from the camp of the 4th Pennsylvania regiment, at Dechard Station, Tennessee, thus describes how the men make themselves comfortable in winter:—

"The camp is laid out in regular order, with an eye to health, comfort and beauty. The company streets are all one width—twenty feet. The houses of the enlisted men are all of one size and appearance, with a space between of two paces, and the same space between those of each company, while the internal arrangements are all nearly the same. Each house has two bunks and accommodates four men. The most of the houses are built of logs, some few of boards, but the dimensions of all are the same. Each house is provided with a fireplace and chimney, built of brick, in the rear, opposite the centre, while the door opens out in front, opposite the centre, to the company street.

"Now let the reader imagine one company having twenty-four houses, each other company having the same number, the dimensions of each the same, and as follows: ten feet long, eight feet wide, and four feet high, with four shelter tents for a covering, having a regular pitch, forming the roof. Place twelve of these on a line, fronting lengthwise, with a space of two feet between each—the door of each opening out on that line opposite the centre of the house, while opposite the door in the rear of the house is the fireplace and chimney; place on a parallel line, leaving a space of twenty feet in front, the other twelve huts, fronting also lengthwise on said line, similar to those on the first line, with the exception of the front of each house, which is reversed, so that the doors of each row front the other, leaving the space twenty feet between the two rows of houses. This space is called the company street. The company kitchen, five feet longer than a company hut, but other dimensions the same, is also built fronting on the first line, on the left of the first row, leaving a space of ten feet from the left."

BADGER!

**1862! 1863! 1864!**

**GOOD! BETTER! BEST!**

THE

**BADGER DRILL!**

HERETOFORE KNOWN AS

**THE JESSUP DRILL!!**

AS MADE BY

**R. J. RICHARDSON,**

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

**THE POINTS ARE CAST STEEL,**

from the celebrated Sheffield works of Singer, Nimick & Co. The felloes are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

**Plant Corn in Rows or in Hills!**

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

*Prices of the Badger for 1864:*

| | | | |
|---|---|---|---|
| 9 Tooth Drill | $75 | 11 Tooth Drill | $85 |
| 10 Tooth Drill | 80 | 12 Tooth Drill | 90 |

JOHN BRIGHT ON THE STRENGTH OF OUR GOVERNMENT.—John Bright closed his recent speech at Rochdale with the following noble tribute:

"Will anybody deny that the Government at Washington, as regards its own people, is the strongest Government in the world at this hour? And for this simple reason, because it is based on the will of an instructed people. Look at its power. I am not discussing why it is, or the cause which is developing this power; but power is the thing which men regard in those old countries and which they ascribe mainly to European institutions. But look at the power which the United States have developed! They have brought more men into the field, they have built more ships for their navy, they have shown greater resources than any other nation in Europe at this moment is capable of. Look at the order which has prevailed at their elections, at which, as you see by the papers, 50,000, or 100,000, or 250,000 persons voted in a given State, with less disorder than you have seen lately in three of the smallest boroughs in England—Barnstable, Windsor and Andover. Look at their industry. Notwithstanding this terrific struggle, their agriculture, their manufactures and commerce proceed with an uninterrupted success. They are ruled by a President chosen, it is true, not from some worn-out royal or noble blood, but from the people, and the one whose truthfulness and spotless honor have gained him universal praise. And now the country that has been vilified through half the organs of the press in England during the last three years, and was pointed out, too, as an example to be shunned by many of your statesmen, that country now in mortal strife, affords a haven and a home for multitudes flying from the burdens and the neglect of the old governments of Europe. And, when this mortal strife is over, when peace is restored, when slavery is destroyed, when the Union is cemented afresh—for I would say, in the language of one of our own poets addressing his country,

'The grave's not dug where traitor hands shall lay,
In fearful haste, thy murdered corse away'—

then Europe and England may learn that an instructed democracy is the surest foundation of government, and that education and freedom are the only sources of true greatness and true happiness among any people."

FOUND IT AT LAST!—Save one quarter of the wood or coal you burn by using

**HUBBARD'S PATENT DAMPER**

that is adapted to the draft of any stove.

The subscribers will call upon the citizens of Janesville and Rock county, and put in one of these dampers, and if, on a fair trial it does not convince the parties that one quarter of the wood used in ordinary stove pipes is saved, they will ask nothing for their trouble.

The above dampers can be found at all the hardware stores in the city.

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stopping to change the length of stitch, is obviated by this machine.

**DR. V. CLARENCE PRICE,**

**ANALYTICAL PHYSICIAN**

*LATE OF BUFFALO, N. Y.*

**Notice for January, 1864.**

It will be remembered that Dr. Price has visited Janesville for three years, restored to health many suffering from affections of the Lungs, Throat, Liver, Heart, Kidneys, Rheumatism, Catarrh, Dyspepsia, Fits, Asthma, Scrofula, Dropsies, Female Complaints, and other diseases called chronic, most having dispaired of a recovery. To the cure of chronic diseases in their various forms and stages, Dr. Price devotes his whole attention. He is not reviving an old worn out system advocated years ago by speculative adventurers, but a method of treatment of twenty years standing, and still pursued in the east with unparalleled success. A system founded on truth, no trifling sacrificing of life to experiments. Knowledge we contend for, not speculation, experiment and quackery! We use no minerals or destructive agent, nor exhaust the energies nor injure the constitution, nor make sick to make well, tear down to build up. We invite honorable investigation, feeling that our cause is just. Those sick and discouraged call upon us—advice gratuitous. Our Philosophy of practice is founded on the Laws of Nature. Our theory of disease the theory of Experience and Evidence—our Materia Medica the boundless forest!

JOHN BRIGHT ON THE STRENGTH OF OUR GOVERNMENT.—John Bright closed his recent speech at Rochdale with the following noble tribute:

"Will anybody deny that the Government at Washington, as regards its own people, is the strongest Government in the world at this hour? And for this simple reason, because it is based on the will of an instructed people. Look at its power. I am not discussing why it is, or the cause which is developing this power; but power is the thing which men regard in these old countries and which they ascribe mainly to European institutions. But look at the power which the United States have developed! They have brought more men into the field, they have built more ships for their navy, they have shown greater resources than any other nation in Europe at this moment is capable of. Look at the order which has prevailed at their elections, at which, as you see by the papers, 50,000, or 100,000, or 250,000 persons voted in a given State, with less disorder than you have seen lately in three of the smallest boroughs in England—Barnstable, Windsor and Andover. Look at their industry. Notwithstanding this terrific struggle, their agriculture, their manufactures and commerce proceed with an uninterrupted success. They are ruled by a President chosen, it is true, not from some worn-out royal or noble blood, but from the people, and the one whose truthfulness and spotless honor have gained him universal praise. And now the country that has been vilified through half the organs of the press in England during the last three years, and was pointed out, too, as an example to be shunned by many of your statesmen, that country now in mortal strife, affords a haven and a home for multitudes flying from the burdens and the neglect of the old governments of Europe. And, when this mortal strife is over, when peace is restored, when slavery is destroyed, when the Union is cemented afresh—for I would say, in the language of one of our own poets addressing his country,

'The grave's not dug where traitor hands shall lay,
In fearful haste, thy murdered corse away'—

then Europe and England may learn that an instructed democracy is the surest foundation of government, and that education and freedom are the only sources of true greatness and true happiness among any people."

FLORENCE SEWING MACHINE

**Over the Post Office!**

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

**Simple, Strong & Reliable.**

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

**FLORENCE SEWING MACHINE COMPANY!**

Who take pleasure in placing their machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

**FOUR DIFFERENT STITCHES,**

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stepping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our machines will be promptly answered. Enclose a letter stamp and we will send circular and sample of work by return mail.

*LATE OF BUFFALO, N. Y.*

**Notice for January, 1864.**

It will be remembered that Dr. Price has visited Janesville for three years, restored to health many suffering from affections of the Lungs, Throat, Liver, Heart, Kidneys, Rheumatism, Catarrh, Dyspepsia, Fits, Asthma, Scrofula, Dropsies, Female Complaints, and other diseases called chronic, most having dispaired of a recovery. To the cure of chronic diseases in their various forms and stages, Dr. Price devotes his whole attention. He is not reviving an old worn out system advocated years ago by speculative adventurers, but a method of treatment of twenty years standing, and still pursued in the east with unparalleled success. A system founded on truth; no trifling sacrificing of life to experiments. Knowledge we contend for, not speculation, experiment and quackery! We use no minerals or destructive agent, nor exhaust the energies nor injure the constitution, nor make sick to make well, tear down to build up. We invite honorable investigation, feeling that our cause is just. Those sick and discouraged call upon us—advice gratuitous. Our Philosophy of practice is founded on the Laws of Nature. Our theory of disease the theory of Experience and Evidence—our Materia Medica the boundless forest!

DR. PRICE will be for consultation upon diseases generally at Janesville,
